

SOTS International Project Summary

VIETNAM

**Training programme for
Welding, Machining, Service & Maintenance
and Petrochemical Laboratory**

Project name: *Training Programme for Welding, Machining, Service & Maintenance and Petrochemical Laboratory.*

Co-operating partners: Selandia College (DK), EUC Syd (DK) and Rogaland Kurs- og Kompetansesenter (N)

Project Leaders: Selandia College (Denmark) and SOTS Course Centre (Norway)

Time period: 2008

Place: Norway and Denmark

Summary:

The immediate objective of the present training programme was to:

- Train a selected group of teachers/technicians of the Dung Quat College of Technology (DQC) regarding the supplied equipment within welding, machining, service & maintenance and petrochemical laboratory,
- Upgrade the teachers' pedagogical skills and competences, improving their abilities on teaching the students in welding, machining, service & maintenance and petrochemical laboratory,
- Establish a “Teach the Teacher” model in order to train the selected DQC staff in planning and implementing the upgrade of their fellow colleagues on pedagogy, welding, machining, service & maintenance and petrochemical laboratory.
