

# SOTS International Project Summary

---

OIL FOR DEVELOPMENT

SUDAN

Inspectors Training for Compliance Monitoring  
in the Sudanese Petroleum Industry

**Project name:** *Inspectors Training for Compliance Monitoring in the Sudanese Petroleum Industry*

**Cooperating partners:** This training program was set up in cooperation with the Norwegian Petroleum Directorate (NPD), Petroleum Safety Authority Norway (PTIL), Climate and Pollution Agency (KLIF) and PETRAD, upon presentation to and discussion with Sudanese authorities.

**Project Leader and Project Managers:** Øystein Førsvoll, Kjell-David Blanchard and Stella Aguirre (SOTS Course Centre)

**Time period:** Group 1: 04 June to 13 July 2012

Group 2: 17 September to 26 October 2012.

**Place:** Khartoum, Sudan and SOTS, Norway.

**Summary:** The program was targeted at personnel working for official authorities related to regulating the oil and gas industry; within the areas of safety and environment.

The main objectives of the program were for participants to obtain:

- An overall understanding of the oil and gas industry,
- A general understanding of how the oil industry is regulated,
- A general understanding of the role of safety and environmental authorities,
- An overview of technical aspects and procedures of process and drilling area,
- An overview of environmental aspects of the oil and gas industry,
- Theoretical and practical understanding of safety and crisis management.
